1. Claims 1-3, 6-8, and 10 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art is Sato et al (U.S. Patent No. 6,651,0460. Sato et al discloses an optimizing method for optimization, the total number of crew required for flight services and a crew pairing model calculation unit for calculating a fitness of a solution. However Sato et al fail to teach extracting said first memory objects and said second memory objects to form an open pairing model, formulating said open pairing model into an integer program data structure to simplify said open pairing model for solution, and generating said multiple solutions based upon said integer program data structure to cure said n open pairings, wherein said integer program data structure is provided by an integer program represented by the formula recited in claim 1 above.

Claims 2-3, 6-8, and 10 depend from independent claim 1; therefore claims 2-3, 6-8, and 10 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
